

Name: Sean Prokop
PID: A13019172
Due Date: Friday (1/25/19)

ECE 5: Laser Cutting Design Worksheet

5 Points: With the software you used to build the geometry, take a screenshot of your final 2D (InkScape) or 3D (SolidWorks) design. Your design should fit within a 3x3in square.

5 Points: Take a screenshot of your final vector design (red stroke/black fill) from InkScape.

Explain briefly what your part is: this is a piece that shows my love for the worst envision supervisor

Turn-in Instructions:

- One submission for the PDF of this completed worksheet
- A separate submission for the PDF file of your final InkScape design which you will use to lasercut
- Upload both submission, **separately**, to gradescope
- **DUE DATE: Friday, 1/25, 11:59 PM**
